32 DEGREES COMPACT 2000

Converts the Compact 2000 from a vertical bottle setup to a bottom line setup. This way you can butt the tank against your shoulder.

This kit is made especially for the Compact 2000. The expansion chamber kit will keep the CO2 from liquifying in the gun.

Bottomline Kit

Expansion Chamber Kit

SPYDER ACCESSORIES

32 DEGREES SPYDER BOTTOMLINE

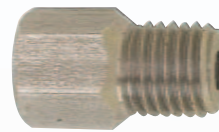

This piece allows you to convert the offset hole pattern of your Spyder to fit any WGP style bottom lines.

Block - Allows for Standard Duckbill

32 DEGREES THREADED HOSE ADPT

Converts the hose threading from metric to US.

Convert Hose From Metric to US

32 DEGREES SPYDER DUCKBILL

Anodized - Black

32 DEGREES SPYDER REAR COCKING

Rear cocking bolt with venturi style head. Distributes air flow equally across the ball, increasing accuracy.

Venturi Bolt - Black

32 DEGREES SPYDER REAR THUMB ADJUSTER

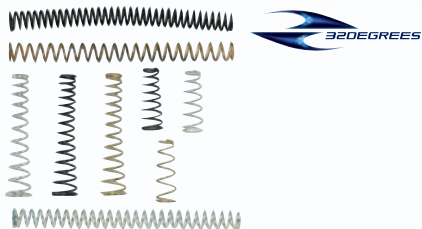

This product allows you to adjust the velocity of your Spyder with just your finger tips.

Dial Adjuster

32 DEGREES SPYDER SPRING KIT

This spring kit comes with 3 main springs, 3 valve springs for the COMPACT & 3 valve springs for the SPYDER. This allows you to adjust the velocity of your marker by spring tension.

9-Piece Kit

32 DEGREES SPYDER BOLT

This replaces the original bolt. It has six holes and provides greater accuracy.
