

## A-5 BASIC

The All New Tippmann A-5 is a high performance paintball marker with the patented Cyclone Feed System. The Cyclone Feed System links the Feeder Sprocket to the Air System. The faster you shoot, the faster the Tippmann A-5 feeds. Pull the Trigger 15 times a second, and the Tippmann A-5 feeds 15 balls per second. The Tippmann A-5 is also easy to clean and maintain with its no tool field strip feature. Innovative technology, maximum firepower, unsurpassed accuracy, and Tippmann durability are the core foundations of the all new Tippmann A-5.

Black/Response Trigger

## A-5 w/RESPONSE TRIGGER

The A-5 with Response Trigger System is the ultimate big game fire power. The Response Trigger System increases your trigger speed by resetting the trigger and sear with excess gas during firing. This gas is used to operate a cylinder behind the trigger to do the resetting. The pressure of your finger on the trigger pulls it back to fire the next shot. The speed is determined by the amount of flow through the knurled adjuster on the side. The upper limit on the rate of fire is set by this adjuster.

## A-5 POWER PACK

Includes - Gun, Goggle, Tank & Loader

**CUSTOM 98 BASIC**

The 98 Custom is our entry level, fully customizable marker. The main feature is the ease of customizing the marker. The 98 Custom combines all the great features of the Model 98 with the ability to accept the Flatline Barrel System, the Response Trigger System, the E-Bolt Electric System, and the Comp-Air Low Pressure System. All of these Tippmann Systems can be installed with the same tools that you use to disassemble the marker. We are sure the 98 Custom is the most customizable marker.
