**For Immediate Release:**  
**Heeeee's Back**

National Paintball Supply, Inc. is proud to welcome David Bell, the man who put the view and the motor in the loader, back to paintball. He started in the business in 1989 with a few dozen hand-made hoppers and has since introduced a long line of successful and innovative products to the sport of paintball.

We are excited to have Dave as part of the NPS team. He will be working closely with Ryan Gray out of our Texas location to bolster business throughout the region. Old friends of Dave are encouraged to welcome him back to the industry by calling our Texas location at 972-871-9156.
